

Welcome to Visitation Catholic Stem Academy!

It is my honor to serve the students, parents and community as the Principal of Visitation Catholic STEM Academy. VCSA's faculty and staff are excited and energized to work with your family and we are deeply committed to making a positive impact in the lives of your children.

VCSA's academic focus strives for high student achievement, deepening faith formation, authentic service in the community, and forming VCSA Scholars to become our future leaders. This is our goal and purpose. Our teachers deliver quality instruction at VCSA by setting clear learning targets and educational goals for every scholar. We want to assure you that our team thinks deeply and carefully about your child's academic needs and their pathways to success. We closely monitor each child's roadmap to success through data driven instruction to ensure student growth and success in all aspects of student life.

We are a STEM school that believes truth leads us to a deeper relationship with our Creator. STEM expands our capacity to understand the world, thus guiding us to a fuller understanding of ourselves and our personal relationship to God.

As the school leader, I am committed to engaging all students in a captivating, relevant, and rigorous curriculum. We strive each day to challenge students to become courageous leaders. Our students will graduate with a deep sense of who they are and who they are called to be. The students have the skills, academic preparation, and values necessary to be successful in all their endeavors.

Thank you for your interest in our school. I am available to answer any questions you may have.

Together we achieve more!

Sincerely,

Marc Nuno, Principal
